

# Sanjeevani Software

## **This is Graphology advisor software.**

### **To Install this software,**

- Insert the CD in your CD drive.
- Click Start, Click Run
- Type "D:\Install.exe" in the box and click ok. (D is your CD drive letter)

This will Install the Graphology Advisor software.

### **To Register software:**

Click start → Programs → Graphology signature → graphology signature analysis.

Click Register. You will see the "hard disk finger print."

Send this number to us via email [drpravin@vsnl.com](mailto:drpravin@vsnl.com) and we will send you the username and password. This will activate your software permanently.

### **To Use software:**

- Click start → Programs → Graphology signature → graphology signature analysis.
- Click go to analysis. Click Start Analysis. Put the First name, Name and Birthdate of the patient. Click Ok

There are 7 factors to be analysed

- 1) Emotional indicators
- 2) Mental ability
- 3) Your Goals
- 4) Your self image
- 5) Social skills
- 6) Mode of communication
- 7) Attitude

Click the appropriate properties for each factor and click **finish**. This will show a analysis of the patients temperament, which will help you to arrive at a constitutional remedy.

I hope you will find this software useful in your practise. In case of any queries feel free to contact us
