

GENERAL OVERVIEW

This package "SOFTIPS" is designed by a Homoeopath for Homoeopaths. It is a maiden venture of young and dynamic Homoeopath, Dr.R.M.Minnath, B.H.M.S.,

It is an honest attempt to help fellow Homoeopathic brethren to select a remedy with more ease and without racking one's brains. The tips were collected from writings of Pioneers of Homoeopathy. The tips are genuine and proven by the stalwarts and subsequently by many Homoeopaths.

FEATURES :

1. Proven tips from renowned authors.
2. Intricate details about potency to be used and the dosage have been added.
3. Provision for adding your own tips.
4. User - friendly interface.
5. Sophisticated help system.
6. Programmed by Homoeopaths, well versed with programming concepts.
7. Organ - wise clinical tips.

The SOFTIPS software opens with a MENU FORM, containing the names of different organs or speciality. You can click on the desired topic for which you want to get the tips. This will lead you to the Main Form. Suppose you want to get tips on Gastro Intestinal Tract, click on the label GASTERO INTESTINAL TRACT. This leads you to the Main Form, where you can obtain tips on GIT.

If you want to get tips on another system like Respiratory System, then you must go back to Menu Form where you can click on the label RESPIRATORY TRACT. this will again lead you to the Main Form. Now you will get the tips on Respiratory system.

Likewise you can get tips on each system.

HOW TO VIEW THE DISEASE NAMES

Click on the label, on the alphabet with which the disease name begins.

For example, if you want to get a tip on Asthma, you have to click on label 'A'. Likewise you can get the disease names for other diseases.

HOW TO VIEW THE DRUG NAMES

Click on the disease name for which you want to view the listed drugs.

The drugs listed for that particular disease will appear in the 'DRUG NAME' column.

HOW TO VIEW THE TIPS

Click on the drug whose description you desire to view.

The indications of the drug, the potency and the dosage to be used, the source(name of the author) of the tip will appear.

COPY A TEXT:

Select the text you desire to copy.

1)Click on the EDIT menu in the menu bar and then, click on COPY in the dropdown menu. Open the Window application to which you desire to paste the text. Click on EDIT in the menu bar there and click on PASTE.

2)Alternatively, click on COPY in the tool bar and paste as explained above.

HOW TO USE SEARCH OPTION

This is to view various combinations like

- 1) List of drugs suggested by an author
- 2) List of diseases in which a particular drug is indicated
- 3) List of authors who have suggested the same drug or who have given tips on the same disease condition

Click on SEARCH in the menu bar.

Click on any one of the options in the dropdown menu.

This leads to a form with further options.Click on the desired combination of options to view the necessary information.

HOW TO ADD NEW DISEASES

This is the unique feature of SOFTIPS2000.

OPTION 1:Click on EDIT in menu bar.

Click on ADD in the dropdown menu.

OPTION 2:Click on ADD(+) in the tool bar.

This will lead to the entry form.

Disease name,drug name and Author have to be NECESSARILY entered in the respective fields. Data entry in the other fields are optional.

Finally,click on SAVE.

HOW TO ADD NEW DRUGS TO THE LISTED DISEASES

Click on ADD(+).

Type the first few letters of the disease to which you wish to add a new entry.
Double click on the desired disease name in the list of diseases which appear in the DISEASE NAME field.
Enter the data in the respective fields.
Click on SAVE.

NOTE: Data MUST be entered in DRUG NAME and AUTHOR fields.

HOW TO DELETE A DRUG

This is applicable only for the entries that are made by the user. You cannot delete or modify any in-built data existing in the package.

Select the drug you wish to delete.

OPTION 1: Click on EDIT in the menu bar.
Click on DELETE in the dropdown menu.

OPTION 2: Click on DELETE in the tool bar.

When the drug name is deleted, the other details pertaining to that drug will also be automatically deleted.

NOTE: If you delete all the drugs for a particular disease, the corresponding disease name will be automatically erased.

HOW TO END THE PROGRAM

OPTION 1: Click on EXIT.

OPTION 2: Click on FILE in the tool bar.
Click on EXIT in the dropdown menu.
