Facereader software analyses 25 parts of the face. These are

<input type="checkbox"/> Face Shapes	<input type="checkbox"/> Chin	<input type="checkbox"/> Disappointment
<input type="checkbox"/> Hairline	<input type="checkbox"/> Chin Cleft	<input type="checkbox"/> Lines
<input type="checkbox"/> Forehead	<input type="checkbox"/> Cheek Bones	<input type="checkbox"/> Compassion Lines
<input type="checkbox"/> Eye Brows	<input type="checkbox"/> Ears	<input type="checkbox"/> Mental Pressure
<input type="checkbox"/> Eyes	<input type="checkbox"/> Forehead lines	<input type="checkbox"/> Lines
<input type="checkbox"/> Eye crosses	<input type="checkbox"/> Destiny Dimple	<input type="checkbox"/> Moles
<input type="checkbox"/> Crow's Feet	<input type="checkbox"/> Forehead creases	<input type="checkbox"/> Survivor Lines
<input type="checkbox"/> Nose	<input type="checkbox"/> Groove	<input type="checkbox"/> Lips
<input type="checkbox"/> Teeth	<input type="checkbox"/> Desirability Line	<input type="checkbox"/> Responsibility Lines

To Analyse, Click on each of the tabs one by one. eg. Click on Face Shapes. On clicking you will see different types of faces pictures. Compare these pictures, with the one which matches with the face of your patient. Click on the picture. Click “Selection is ok”.

Now move to second point i.e. Hairline. Click on the button “Hairline”. You will see different types of possible hairline pictures. Compare this with the patients hairline, and click on the picture. Click “Selection is ok” button.

In the similar manner, now move on to all the 25 points, and select the appropriate type. Click on Create analysis. This will show a analysis of the patients temperament, which will help you to arrive at a constitutional remedy.
